

HOLY TRINITY GREEK ORTHODOX CHURCH

Our church has been transformed by the thoughtful and prayerful placement, and traditional accuracy of the iconography that Themis offers. His ability to capture faces and eyes with softness and beauty, open a window to the spiritual dynamism of the saints depicted. The multi scene icons are well thought out in their placement and design. I look forward to our next phases of iconography within our Sanctuary. His iconography brings such a warmth, beauty, and didactic presence to our church.

With Paternal Blessings,
Fr. Peter
